

Would you like us to bring a full day workshop or training session to your local area?

Contact Kim if you would like to help facilitate a training day in your local area.

We charge a base fee of \$150 per participant for facilitated workshops. Minimum numbers may apply depending on travel costs. To facilitate a workshop or training day you

1. Provide the venue (your centre) we may have to hire adult chairs and tables (hands on workshops only) and would need a white wall to display the data projector
2. Be a local contact for enquires and spread the word.
3. We will produce a flyer for you to distribute locally. We will also promote via our newsletter.
4. Organise catering - you may like to ask your committee (we pay \$15 per head) or we can do this also

We supply: Data Projector, handouts, certificates of attendance, name badges.

Numbers will be limited so it is a small group.

Catering Suggestions

Morning Tea: Cake, biscuits, fruit Tea, Coffee, juice, water

Lunch: Wraps, sandwiches, fruit, quiche, sausage rolls, pizza Tea, Coffee, juice, water

Alternately to organise private training for yourself and staff the following options are available.

Expenses if flying or driving more than two hours from Gympie

- Accommodation & Meal Allowance \$200 per day minimum (maybe higher due to venue prices)
- Economy airfares (Qantas preferred supplier), car storage (Qantas Airport Parking); travel to Brisbane (\$150)
- Hire car or Taxi transfers from airport to accommodation & between accommodation and venue unless transported up by local representative.

HALF DAY WORKSHOPS ALSO AVAILABLE IN LOCAL AREA IF MORE THAN TWO HOURS AWAY FULL DAY FEE WILL BE CHARGED

DESIGN YOUR OWN FULL DAY CONFERENCE may include.

PRESENTATIONS

Enhance communication and learning in early childhood settings using digital photography.

A large display of created resources will be on show. Examples given of posters, stories, wall documentation, portfolios both printed and digital, games, newsletters and room resources. Showcase of PowerPoint-based digital portfolios systems and other resources used to create printed portfolios.

Documenting Children's Thinking

The environment is the third teacher, making time to listen in a negotiated curriculum. Using various forms of documentation to engage and expand the children's horizons eg. Specific examples of project work will showcase various forms of documentation created to capture the moment.

Project Work with Young Children

When, How, What, of projects. Using photos as a stimulus for props, role play etc. Numerous projects showcased to inspire teachers and give an understanding of the process.

From Craft to Creativity

Developing creativity in the Early Years - A creative teacher is one that inspires creativity in others. A wide selection of open ended materials used in workshop. Kim has a passion for inspiring creativity in children. Kim's trip to Italy in 2006 to view Reggio centres expanded her knowledge of setting up creative environments.

HANDS ON TRAINING

Everyone brings along a laptop or PC or we can use a computer lab at a school or uni (extra charge for hire of room would need to be added to costs.) half day, evening or full day.

PRINTED PORTFOLIOS, NEWSLETTERS & POSTERS (MICROSOFT WORD) for beginners:

Take digital photography to a higher level. Create documentation, posters using *Digital Documentation* resource. Share tips for making Microsoft Word efficient and effective. Sorting and storage of digital images, reducing size, copying to child folders, burning, group rotation of images etc.

DIGITAL PORTFOLIOS & GROUP LEARNING STORIES (SHARING THE JOURNEY) for beginners:

Hands on training using *Sharing the Journey* digital documentation resource. Sorting and storage of digital images, reducing image size, copying to child folders, burning, group rotation of images etc.

PHOTOSTORY

Hands on training. See how easy it is to create slideshows which incorporate text, audio narration or background music and images. Free downloadable program from Microsoft. Add text to images. Images fade in and out, zoom in and out as they transition.

KIDZPIX DELUXE 3

Make animations, stand alone digital talking books that incorporate animations, images, computer drawings and audio recordings from children. Program required to be installed on each computer.
